

REMARKS

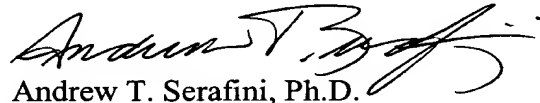

Applicants request entry of this amendment in adherence with 37 C.F.R. §§1.821 to 1.825. This amendment is accompanied by a floppy disk containing the above named sequences, SEQ ID NOS:1-409, in computer readable form, and a paper copy of the sequence information which has been printed from the floppy disk.

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy.

This amendment corrects an inadvertent error in the present "SEQUENCE LISTING" in which the nucleotide sequence of SEQ ID NO:195 was indicated to contain 24 nucleotides, the corrected figure indicating the 23 base pairs actually present. Thus, this amendment introduces no new matter.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,

Andrew T. Serafini, Ph.D.
Reg. No. 41,303
